With the Volleyball program, students (male and female) must choose a minimum of 12 credits (Fall / Spring from our range of academic courses. We offer courses in Spanish language, Spanish culture, Liberal Arts and Business among other areas of study. Alongside their studies, they are also placed in a local Sevillian volleyball team for weekly training sessions and various friendly matches throughout the term.

Please note: Due to the volleyball seasons in the US, we offer our Volleyball program to only Female athletes in the Spring term and only Male athletes in the Fall term.

What our students say...

"My volleyball experience in Spain was one of a kind. It was a whole different experience since I was able to learn more about their differences in plays. The language barrier made it a little hard but it still pushed me to learn more about the language."

Necole Stravino, Goucher College
