About the Program

What do we Offer

Located in the heart of the bustling city centre of Seville, Spain, the Spanish American Institute of International Education (SAIIE) is a study abroad institution affiliated to the University of Wisconsin-Platteville since 1984

Our programs are based around three main goals: academic excellence, cultural immersion and social integration. With the development of our new athletic programs, we are now also able to help students achieve these goals through a sports environment where they can develop their athletic abilities whilst being surrounded by the Spanish culture and people.

This unique program in Seville, Spain allows High School students, from 16 to 18 years old (Boys only), who are playing football back at their schools in their home country, to have an international study abroad, cultural & football experience.

This program allows students to not only take Spanish language courses at the SAIIE center but to fully immerse themselves into Spanish culture through the housing, football and cultural program that is set up with other Spanish students (ages 14 - 20 years old).
