1. Aims

This training course offers a theoretical and practical approach to the teaching of English as a foreign language (EFL) to Spanish-speaking students. Classroom practice will be fostered which includes activities in the class, activities outside the class under the supervision of a tutor and the opportunity to take part of the course in a Spanish school with Spanish students in the city of Seville. This way, not only theoretical content but also the cultural aspects which are involved in the practice of teaching English as a foreign language will be dealt with.

2. Methodology

From a methodological perspective, theory will be determined and learned from the practice. Classroom interaction and dynamics guided by the teacher will be dealt with in class; students will work in pairs and in small groups and will have to get involved in creative tasks such as lesson planning, original learning resources design, classroom observation and teaching.
